Specifications – Mutag BioChip™ - Light

Product name:	Mutag BioChip™
Distributor:	Mutag A/S, Industrivej 41, 6760 Ribe, Denmark
Manufacturer:	Lynddahl A/S, Industrivej 41, 6760 Ribe, Denmark
Description:	The Mutag BioChip™ works by providing a large surface area for microorganisms to thrive, forming a biofilm that naturally degrades pollutants in wastewater
Applications:	COD/BOD removal, nitrification, denitrification, ANAMMOX process
Active Surface Area (protected):	Up to 5,500 m^2/m^3
Bulk Weight:	165.00 kg/m^3 ± 2%
Colour:	White
Shape:	Round, paraboloid
Pore System:	May vary due to raw material
Material:	PE virgin material
Diameter:	30.0 mm
Material Thickness:	1.0 ± 0.2 mm
Specific gravity:	Approx 0.95 kg/l (without biofilm)
Packaging:	Standard packaging: BigBags, each 247.5 kg net = 1.5 m^3
Container loading:	30 m^3 in 1 x 20ft standard sea freight container or 66 m^3 in 1x 40ft HC standard sea freight container
Note:	Quality product for optimal biological removal rates
